DESIGNED IN THE UK BY FB TECHNOLOGIES LTD
ASSEMBLED IN DUBAI

- **HIGH QUALITY COMPONENTS**
- **RELIABLE AND TRUSTWORTHY CONSTRUCTION**
- **MARKET LEADING WARRANTY**
- **DESIGNED TO BE A RUGGED, HARD WORKING MACHINE**
- **FIT FOR PURPOSE IN INDUSTRIAL AND AGRICULTURAL SECTORS**
- **EASY MAINTENANCE**
- **ENVIRONMENTALLY FRIENDLY - ELECTRIC**
- **SILENT OPERATION**
- **LONG BATTERY LIFE**
- **LEFT HAND DRIVE**
- **FUTURISTIC ENGINEERING AND DESIGN**
- **HIGHEST PAYLOAD IN THE CATEGORY**
- **LOWEST OPERATING COST**

Functional hard working utility vehicles can now also be environmentally friendly, whilst not needing to sacrifice power or reliability. Introducing the E-Raptor – the world's first electric 6 wheel utility vehicle.

Thinking of the future, the environment, the legacy that we leave our future generations and the job at hand, the E-Raptor uses the most advanced battery technology mated to a refined automatic gearbox.

The E-Raptor is smooth and easy to drive with excellent power and torque. With 80km range on a single charge, the E-Raptor is fit for purpose in most industrial and agricultural applications.

The E-Raptor is designed and engineered as an environmentally friendly, reliable workhorse. It is especially designed to carry heavy workloads as required by industrial and agricultural users, whilst being versatile in on-road and off-road conditions.

With Spiral Sprung Suspension Technology as standard, the E-Raptor can display excellent driving control whilst carrying its maximum load weight of up to 1200kg.

The steering control is optimised to allow comfortable handling, minimal turning circle radius and excellent manoeuvrability.

The E-Raptor is supplied with Intermediate tyres as standard however on-road and off-road tyres are available.

The E-Raptor is fully customizable by vehicle integrators and can be ordered in a suitable form to allow easy and safe customisation.

The vehicle is designed to be highly customisable with add on or removable cab & Windscreen and rear bed.

Available in Yellow or Red as standard and other colours on special request.

Commonly customised into fire fighting vehicles, Medical Vehicles and Maintenance/ utility vehicles.

Type: Electric
Dimensions: 3240mmx1600mmx1980mm
Drive: 4x6
Drive Train: Axle
Curb Weight: 300kg
Loading Weight: 600kg (1250kg untested)
Speed: 30km/h with load
Seats/Passanger: 2 bucket seats
Motor: Brushless D.C Motor
Voltage Rated: 60V/72V
Starting: Key Electric start
Power Rating: 3KW
Battery: Deep Cycle Battery 5/6x12V
Full Battery: 80km
Charging: Regenerative Charging
Gearbox: Automatic
Transmission: Automatic
Suspension: Independent Front
Front Brake: Hydraulic Disc Brake
Rear Brack: Hydraulic Drum Brake
Parking Brake: Hand Lever Rear Mechanical
Steering Gear: Rack & Pinion Steering Rack

Optional Extras: Front / Rear Towing Hook
Road Tyres
Grass Tyres
Offroad Tyres
Frequency Radio/CD/Mp3
Power Steering

Easily maintained and spare parts are available on 24 hour shipping globally.

Available through FireBug Distributor network or directly from E Raptor
